

Maximize Your Investment in Softlib's iSolve

Become a Certified iSolve Expert (CSE)

Overview

Softlib University offers a short yet rigorous certification program that gives you the knowledge and expertise you need to professionally manage your iSolve technology and apply it to the maximum possible. Take a deeper dive into your iSolve software. Learn how to incorporate the latest software capabilities into your organization immediately.

Learn From Experts and Peers

Softlib Certification Program offers a personalized learning environment, providing one-on-one consulting with Softlib experts. Our public classes also allow you to speak with peers from other organizations that are tackling similar challenges, with the same goals and objectives in mind.

The topics presented in this course provide a thorough understanding of the functionality of the iSolve software solution, including the latest and most advanced capabilities, integrations with third party applications used in most organizations today, lessons learned and best practices based on our industry experience. The course includes lectures as well as hands on practical experience.

Who Should Attend

Softlib University is designed for experienced users as well as iSolve Administrators who would like to advance their skill set.

Agenda

The following is a high level agenda for the Softlib University training program:

- iSolve overview & architecture
- Advanced capabilities – Advanced Search, Integrations, Virtual Organization of information, Meta data
- iSolve Administration – Customer portal, ranking calibration, reporting
- iSolve roadmap
